MEMORANDUM FOR MR. DOUGLAS

Re: JEPHTHA S. ROGERS,
Applicant - Special Agent.

I was interviewed by Jeptah Rogers with reference
to the fictitious applicant Joe Lynch.

Mr. Rogers' approach was fair. He conducted the
interview without any signs of nervousness or being ill at
ease, and the same was conducted in a businesslike manner.
He presents a good appearance, and it is believed that with
adequate training he will develop into a better than average
Agent. Favorable recommendation is hereby made.

Very truly yours,

E. K. THOMPSON,
Special Agent.

Memorandum to Mr. Douglas

At your request I have interviewed Mr. Ed Thompson concerning Joe Lynch, applicant for appointment in Federal Bureau of Investigation.

Mr. Thompson has known Joe Lynch since 1922. He attended College and Law School with Lynch for six years. Lynch made very good grades while in college, but in Law School, due to the fact that he was working to pay his way, his grades were not as good as before. This was the sole reason for his failure to continue his high grades.

Lynch did not drink, except a drink or two socially. Thompson did not know of any time when Lynch had been drunk.

Lynch's morals were very clean. He had never been in any trouble so far as Mr. Thompson knew.

Lynch had three brothers, no sisters.

One brother was chief petty officer in the
navy; another was employed by the
U. S. Mint as Customs Inspector, New Orleans, La.; the
third was a newspaper reporter.

The Bureau advised in telegram of reference that Applicant was employed by M E Gilloiz Construction Company, Monett, Missouri, as a laborer from July to September in 1933

Special Agent C J. Endres contacted Raymond Hogan, Clerk in the office of the Gilloiz Construction Company, Monett, Missouri. Mr Hogan searched the pay roll records and then later telephonically advised Special Agent Endres that he was unable to locate his record of Applicant by name

Mr Hogan stated that the pay roll records reflected other Rogers on the pay roll during the period from July to September 1933, but none with the name or initials of Applicant. Mr Hogan further advised Agent Endres that possibly the employment record could be located if the name of the Superintendent under whom Applicant worked were known

Hogan further stated that the Proprietor of the Construction Company, M E Gilloiz, was out of the city, that the date of his return was unknown, but that he, Hogan, did not believe that Mr Gilloiz would personally know Applicant, inasmuch as during the period from July to September 1933, Gilloiz had ten or twelve jobs going, and that Mr Gilloiz was not personally acquainted with all the employees

MEMORANDUM

Mr. Chapman Fletcher,
Special Agent in Charge.

Re: JEPHTA ROGERS, SA Applicant.

Dear Sir

This is to advise that while I am not closely acquainted with Jeptha Rogers, I am in a position to know of his reputation at the University of Arkansas. He had the reputation of being a good student, well-liked by everyone, and one of the outstanding officers in the R. O. T. C. unit.

I roomed with applicant's younger brother, Tom Dan Rogers, at the Kappa Alpha House during the spring semester 1935 and the fall semester 1935. During this time I became acquainted with Tom Dan's family, Mrs. Rogers, and Mr. and Mrs. Paul Jorgenson, his sister and brother-in-law. Mrs. Rogers was held in high regard by the people of Fayetteville, and was particularly well-liked and respected by the boys at the house. Mrs. Jorgenson was employed at the Buildings and Grounds office of the University and was well thought of there. Tom Dan Rogers majored in geology and was assistant laboratory instructor during his senior year. He was an officer in the R. O. T. C. unit, and is one of the finest young men of my acquaintance. He is presently employed at the Geology Department of the State of Arkansas.

The family is one of the oldest in Paris, Arkansas, and is one of the finest groups it has ever been my pleasure to know.

Respectfully submitted,

/s/ A. T. Bowen

On April 3, 1937, Special Agent J. J. Rowley was given instruction by Special Agent H. G. Wiltse in the rudiments of automobile driving, including starting, stopping and shifting gears. Mr. Rowley has never previously driven an automobile and at the present time has no knowledge along the lines of automobile driving, except the instruction given him on the above-mentioned date. Mr. Rowley will undoubtedly rapidly acquire the art of driving, if given constant instruction. At the present time he is totally unable to drive.

Respectfully,

STATEMENT OF WITNESSES

[The statement of witness should tell just what the witness saw personally, or, if he did not see the injury occur, just what he knows about it and when and by whom the information was given him.]

On April 7, 1937 between 4:00 and 5:00 O'clock P.M. the training school for new Special Agents, of which Jeptha S. Hayes and I are members, were in the gymnasium practicing jiu jitsu. In doing this we were instructed to take certain holds on other agents and throw them lightly over our shoulders to the mat. In one occasion I threw Hayes over my shoulder to the mat and he landed on his left shoulder which was bruised as a result. The injury was not bad and is not now considered serious. It apparently resulted in a minor bruise which was painful at the time to Hayes.

He is very active physically, is speedy; he needs to show some greater patience in handling details; he is intelligent, and has not really studied quite as hard as some in the class. Memo for the Director

- 2 -

July 3, 1937.

This Special Agent was attentive during his course of training; he possesses good judgment, is forceful, shows initiative, force and industry. He seems to be a dependable type of employee who has a proper attitude toward the Bureau and its work. He is rather a good mixer. He is not inclined to be the studious type and this is reflected in the fact that he does not give satisfactorily close attention to details; and consequently, he will probably not be as thorough as he should in his investigations during the early stages of his practical training work. He showed some tendency toward temperament and impatience at petty tasks, but this was not a serious fault nor was it a frequent occurrence. He is rather nervously energetic.

I believe this agent has entirely satisfactory prospects for developing into a good Special Agent.

Respectfully,

H. H. Negg

MEMORANDUM FOR MR. CLEGG

RE: NATIONAL MOTOR VEHICLE THEFT ACT -
Interview by Special Agent Jeptah S.
Rogers.

Special Agent Rogers entered my office in a businesslike manner and introduced himself by exhibiting his commission card. He was a little abrupt in starting out the interview by stating that he came to talk about the identification of an automobile.

He covered all the necessary information desired in interviewing the owner of a stolen automobile, but the order in which he obtained this information was not logical as he inquired as to identifying marks near the first of the interview and did not get a general description of the car until the last thing, having apparently overlooked this information.

He referred constantly to an outline or notes which he had prepared prior to coming into the office.

When informed that the certificate of title and registration papers had been turned over to the insurance company, he suggested that I have these papers returned so that I could have them in the event I was called upon to testify and he appeared completely at a loss when I remarked that I was not interested in having these papers returned to me as I was only interested in having the insurance company return the automobile or make a cash settlement with me for same. As to the report submitted by Agent Rogers, the synopsis of the facts does not indicate the description of the automobile nor the fact that I could personally identify this automobile by motor number. He also used in the synopsis of facts the phrase "informed Agent." He also stated in the synopsis of facts that the owner did not know any facts surrounding the theft and the details reflect the circumstances surrounding the theft. The undeveloped leads set out in this report are the logical leads and the grade on both the interview and the report is FAIR.

Respectfully,

Reference Report of Special AGENT J. L. Kensington at El Paso, Texas, dated May 7, 1936.

Details : T. O. Brown, 1628 Shepherd St. N.W., Washington, D. C. informed agent that he was the owner of the 1936 Marmon Sedan found in the possession of subject at Roswell, N. Mexico on May 3, 1936. Mr. Brown described the car as being a 1936 Straight Eight Marmon Four Door Sedan, dark green in color, red wooden wheels, extra tire on the back covered by a plain black tire cover. Mr. Brown stated that he had parked the car on E. St, between 12th and 13th Sts. N.W., Washington D. C. around 8 p.m. on the night of April 27, 1936 and that when he returned ~~thaxxx~~ around eleven p.m. the car was gone. Mr. Brown stated

that he did not know any of the circumstances surrounding the theft, nor did he have any idea as to the identity of the thief. The theft was reported to the Metropolitan Police Department immediately after its discovery by Brown.

Brown stated that he knew from his own knowledge that the motor number of the car was #T-1442, inasmuch as he had made a note of this number at the time he purchased the car. He has this note in his possession at present, and was advised by agent to preserve it. The title to the car and the registration card were reported by Brown to be in the possession of the Home, Fire, and Marine Insurance Company of Washington, D. C., where they had been sent immediately after the theft. The car is insured by the above named company under a policy known as the "Present value" policy. Brown informed agent that he had purchased the car about two months before its theft and that he paid \$1500. for it. He considered the ~~value of the car at the time of the theft~~ ^{He did not know the serial number of the car, nor the} present value of the car to be the same as the purchase price. The car was purchased from the Washington Marmon Company which company purchased the license for the car. ¹⁹³⁶

The only means of identification of the car, other than the general description and the title and registration card, is a small burn in the upholstery of the front seat near the right door, presumably made by a cigarette..

Brown stated that he did not know of a Martin A. Burke.

Dear Sir:

Re: THIRTY DAY EFFICIENCY REPORT
SPECIAL AGENT JEPHTA S. ROGERS

Special Agent JEPHTA S. ROGERS reported for duty in the San Francisco Office on July 3, 1937, directly from training school for new Agents.

A previous special efficiency report has not been rendered on Agent ROGERS, due to the fact that during the first month I was absent from the office for a considerable portion of the time, and therefore was unable to observe a great deal of his work.

This Agent has a fair personality, and presents a fair appearance, although he is slightly "farmerish", and does not particularly instill a great amount of confidence, so far as impressions are concerned.

Since his arrival in the San Francisco District, Agent ROGERS has handled a various number of elementary leads and different classification of cases, including National Motor Vehicle Theft Act, White Slave Traffic Act, Impersonation, Fraud Against the Government, and War Risk Insurance cases, all of which he has handled with fair dispatch.

He is a sincere and willing worker, and apparently ambitious, and appears to have an average amount of native intelligence.

Agent ROGERS is qualified in handling firearms, as well as in driving an automobile, although, on one occasion, after riding with him, I had to caution him against driving too fast within the corporate city limits. He is capable of submitting acceptable rough draft reports. He has had no opportunity to testify.
